

PRODUCT UPDATE

BIAS-CUT TAPES

Our Bias-Cut Tapes are made using a bias-cut technique, providing superior flexibility and enhanced conformity compared to traditional straight-cut tapes. This allows for smooth application on plackets, cuffs, cuff bindings, or as seam reinforcements, improving both the quality and durability of garments. It also helps prevent moiré effects. Available in cotton, polyester, or blended compositions.

Key Features

- **Bias-Cut:** Enables superior stretch and adaptability for various garment parts, preventing moiré effects.
- **Customizable Widths:** Available in different widths to meet application requirements.
- **Smooth Finish:** Minimizes puckering and ensures a clean, professional appearance.

Material Options

- **100% Cotton:** Soft hand feel, breathable.
- **100% Polyester:** High durability, wrinkle resistance, and easy care.
- **Cotton Blend:** Balanced performance with enhanced strength and flexibility.

Advantages

- Improved fit and finish for curved seams.
- Consistent performance across different fabric types.
- Customizable width and material for diverse production needs.

BLS Tapes can be customized to your garment needs. Contact us for samples, specs, or customization.

Contact us

At Wendler Interlining, we combine technical know-how with over 50 years of experience to help garments perform at their best.

Professional quality isn't just about the outside - it's what's inside that counts.
